

Encounter Collaborative

Single source solution provider for all your conferencing needs

Imagine training all of your employees, customer and vendors without booking a single conference room, printing reams of hand-outs or having to coordinate schedules and locations. Encounter's audio and web conferencing services can make it happen, helping you dramatically reduce the time and money that goes into your current training efforts. Present training classes virtually to people around the world, in real-time or on demand, with all of the benefits and techniques of a traditional classroom – whiteboarding, document mark-up, Q&A, discussions and more.

- :: Corporate Policy Training
- :: Benefits Instruction
- :: Sales Training
- :: Management Training
- :: Compliance Certification
- :: Customer Education
- :: IT Application Training
- :: Partner and Vendor Education

Training Solutions Using Encounter Collaborative

Whether you are delivering training to thousands of people, or providing one-on-one mentoring, Encounter's conferencing services can improve the way you:

Train employees

Deploy your next intra-department or company-wide employee training program online, resulting in immediate cost reduction for your organization. With interactive tools that facilitate online learning, such as polling and testing features, trainers have the ability to immediately gauge audience retention.

Train customers

Get your customers up to speed on your products and services by hosting online product training sessions, presentations and demonstrations. Two-way audio and web interaction facilitates attendee and presenter dialogue, resulting in a greater understanding of the training materials.

Design and review training materials

Decrease the amount of time it takes to create and implement training materials by conducting design and review sessions online. Changes to content and

delivery methods can be made in real-time, with all content developers, trainers and facilitators conveniently participating, regardless of location.

Measuring attendee comprehension

With interactive training tools at their disposal, trainers have the ability to immediately measure attendee comprehension. Interactive polling, testing, Q&A session and audience feedback tools provide instructors necessary and valuable information to help determine the success of the training program.

Scale your training events

Reach more people more frequently without increasing overhead. With live online training, your trainers can conduct multiple training sessions a day and archive training sessions for on-demand playback.
